

Smart Energy

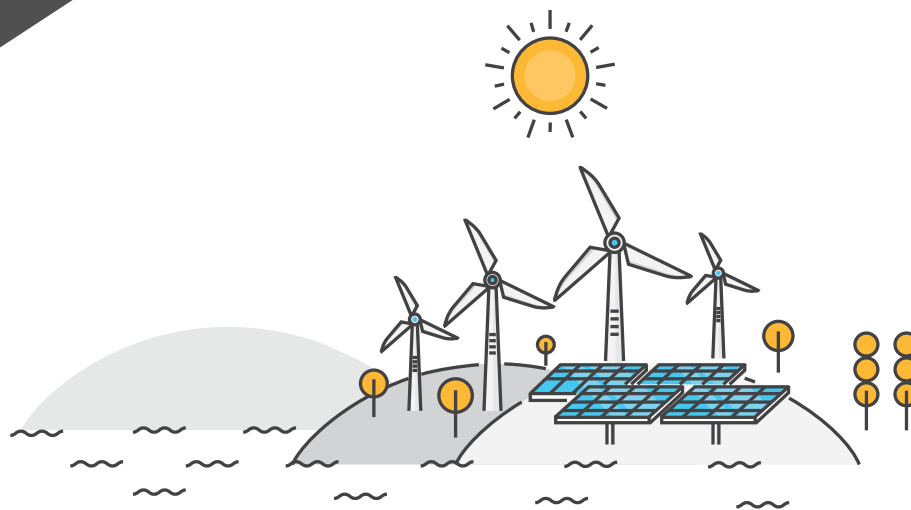

Providing smart energy platform service from lithium battery to energy storage & management

The energy world made with the world best DSP technology!

Design / Supply PV, ESS, EMS based on competitiveness price of lithium ion / iron battery

Our objective is to be a strong and powerful PV manufacturer With best technology and products qualities.
We are dreaming it and making truly our dreams.

Business Sector – Full Integration

CELL

MODULE

EQUIPMENT

100MW Solar Cell Turn-key Line

100MW Solar Cell Turn-key Line

Strength

- ✓ Cost competitive advantage
- ✓ Minimal Initial Investment
- ✓ Advantage of competitive raw material Procurement
- ✓ Various Production (1.65w-340w)
- ✓ Vertical integration(Cell > Module)
: As cell and module at a vertical assembly line so that we can improve our cost competitiveness & can supply raw materials with high quality which enable to make product competitive technically also.

72 cell / Polycrystalline photovoltaic modules
High performance photovoltaic modules

The advantages

- 10 years manufacturer's warranty
- Highest performance due to specifically Selected technologies and materials
- Guaranteed positive power tolerance from 0-5 Wp by individual measurement
- Maximum 5400 Pa snow load
- High quality junction box and connector systems
- 4 Bus bar cell

Certification

Guarantee

10 years manufacturer's guarantee on 90 % of the nominal performance
25 years manufacturer's guarantee on 85% of the nominal performance

72 cell / Monocrystalline photovoltaic modules
High performance photovoltaic modules

The advantages

- 10 years manufacturer's warranty
- Highest performance due to specifically Selected technologies and materials
- Guaranteed positive power tolerance from 0-5 Wp by individual measurement
- Maximum 5400 Pa snow load
- High quality junction box and connector systems
- 4 Bus bar cell

Certification

Guarantee

10 years manufacturer's guarantee on 90 % of the nominal performance
25 years manufacturer's guarantee on 85% of the nominal performance
